

NEW HIGH FIGURE IS REACHED ON EWES

ELEVEN DOLLARS THE SALES PRICE AT KANSAS CITY.

Wethers Going At Eleven Twenty-Five, Yearlings At Thirteen-Fifteen and Feeding Lambs Fourteen-Fifty—Very Encouraging Outlook On Cattle and Hogs—Late Quotations.

The Blue Special Service:

KANSAS CITY, Mo., Feb. 12.—Stock showed weakness after Tuesday of last week, ten to twenty-five cents lower in some cases, including steers and feeders. Butcher grades steady. A supply of sixteen thousand head steady to ten cents lower as compared with the close of last week. No choice steers here. Top \$16.50. Hogs sold strong with the advance of last week. Receipts sixteen thousand. Top \$14.40. Sheep and lambs sold ten to twenty-five cents higher, with sales at a new figure of eleven dollars. Prime steers sold at twelve dollars last week and would bring it today. The best marketable here sold at \$10.40, some day Nebraska cattle at \$10.25 and warmup sheep around \$9.50. Five cars of Colorado springfleeted steers brought \$18.75, twelve pounds average, which is ten cents above a week ago, plus drivers from there. Other purchases were at \$20.00 to \$19.40 from Northern Colorado. A string of Arkansas steers weighing 1225 pounds sold at \$19.15. Cows sell up to \$9.50, bulls \$8.50, one head at \$7.50 and veals up to \$1.25. Smaller receipts are reported the balance of the week. Stock steer sold up to \$18.75 today, requiring 19.15 with the bulk of the transaction fifty cents to a dollar under those figures. The market is about steady with the close of last week and fifteen to twenty-five cents under a week ago. Tops on both stock cattle and feeders a year ago were around \$7.50. Extreme cold weather has kept buyers away for a week.

Lambs regained almost all their loss of last week after Tuesday, tops selling today at \$12.05, only five cents under tops last Tuesday and twenty-five cents above tops last Friday. Sheep sold at \$11.00, ten cents above the last price of last week, but not quite the limit of the market on ewes. Wethers at \$11.25 and yearlings at \$12.15 were other high sales. Feeding lambs at \$11.00, seventy-three pounds average, more properly called shearing lambs set a new high record on that class.

BANKERS ARE TO ENCOURAGE UTAH LIVE STOCK INDUSTRY

Bankers of the state are lending their support to the campaign to encourage the extension of the live stock industry in Utah, according to advice received by state officials. The Delta state bank has sent out letters in which it declares the bank will support the right type of cattle feeders.

Support for the live stock industry and the dairying industry of the state was urged by bankers at their convention in Ogden last summer. At that time it was the sense of the bankers that it would be good policy to encourage both industries.

Man Sheep Quarantined.

Dr. P. H. Murray, inspector in charge of the Salt Lake City division of the federal bureau of animal industry, reported this week that three herds of sheep, numbering nine thousand head, had been quarantined twelve miles west of Milford, the result of an outbreak of scabies. They are known as the Jensen and Edwards flocks.

This is the first case of scabies discovered in Utah in more than a year, but Dr. Murray does not regard it as being serious. He has assigned Dr. R.

Domestic Problems Solved; Or How to Keep a Cook!

This solution requires but four words—**BUY THE BEST GROCERIES.** A good cook takes pride in her work.

Inferior groceries just CAN'T be cooked to your satisfaction. Then the cook is the GOAT.

When you buy groceries from this store you GET THE BEST—and KEEP YOUR COOK. We take just pride in the quality of our groceries. Buy from us and keep peace in the kitchen.

Farmers' and Stockgrowers' Store
PRICE, UTAH

W. McGuinn, a member of his office, to remain in the neighborhood of the quarantined herds until the outbreak is under control.

Cattle Company Incorporates.

PROVO, Feb. 16.—The Beck Cattle company, incorporated to engage in breeding and stockraising, with American Fork as the principal place of business, has filed articles of incorporation with the county clerk. The capital stock is \$100,000 in three dollar par value shares. The officers, who also comprise the board of directors, are J. S. Beck, president; James W. Beck, secretary, and Stephen F. Beck, treasurer.

Special Prizes Offered.

The American Hampshire Sheep association will offer special prizes at the Utah State fair this fall, according to information received by Secretary Horace S. Easton of the State Fair association.

The special prizes are offered for a flock containing two yearling ewes, two ewe lambs and ram of any age. The first prize is fifteen dollars, second and third, \$10.00, third nine dollars and fourth six dollars.

The sheep must be bred and owned in Utah by the exhibitor.

Feeder Market Growing.

Salt Lake City took a firm grip on its claim as a market for feeder livestock last Saturday when W. E. Clifford of the Intermountain Live Stock company disposed of five hundred head of feeder cattle at the Salt Lake Union stockyards. The cattle were sold to W. C. Wyatt of Colorado through the Salt Lake Live Stock commission company. The market for feeder cattle is reported as very brisk by the commission firms.

Omaha Live Stock.

OMAHA, Feb. 15.—Receipts—steers, 2800; steady. Native steers, \$8.25 to \$11.25; cows and heifers, \$7.00 to \$10.00; western steers, \$7.25 to \$10.25; Texas steers, \$7.00 to \$10.00; steers and feeders, \$8.50 to \$10.00. Sheep—Receipts, \$11.00; wethers, \$9.50 to \$11.50; lambs, \$12.75 to \$14.50.

The same rate of cost is to apply on no additional one-hundred thousand gallons per day, and a rate of seven cents per thousand is made on all above five hundred thousand gallons when needed and available. The three hundred thousand gallons per day is considered a most liberal amount for the present population of Price. This is about one-third of the water owned by the city. This will make it possible for Price to sell to other nearby communities and to corporations desiring to join in the contract.

The new arrangement, if adopted, requires the promoters to bring the water from a point above the tool works matter now going into the river for several miles above the city. This improvement also meets with the approval of the state health authorities. Engineers representing Salt Lake City capital to be invested estimate that it will cost at least a hundred and 600 thousand dollars to construct the system.

This money is to be raised by a bond issue which is to be taken for the National Copper bank of Salt Lake City. This issue will also be open to the public, it is understood.

The Denver and Rio Grande and the Utah Fast company, it is said on good authority, have already signed tentative contracts similar to that ofter Price. Helper is said to be considering a similar proposition. In order to assure the validity of the bond issue, the supreme court will be asked to pass upon the question before its bonds are placed on the market.

Barboglio Makes Sale.

H. H. Norton, a leading stockman of Delta, Colo., was an arrival at Green River last week and went out to the Pete Barboglio ranch at San Rafael. While at Green River he purchased a carload or more of Barboglio's registered bady calves and they were shipped out later. Some of the Green River people are deplored the loss of these fine animals from that section, as they are all needed on the home ranges.

Feed Corn to Sheep.

Feeding corn to sheep has been begun by Nevada sheepmen according to advice received by the Utah board of sheep commissioners. This move is said to be due to the poor range more than to a desire to put the sheep in the best possible condition for the spring wool clip and lambing period.

The stock, it is said, has not decreased range feeding to any extent.

(Continued from page one.)

offered by Elder Orson H. Guymon, the local lodge of Odd Fellows looked after the body, taking the same to the train Wednesday morning for shipment to Ogden. The dead man was a member of the Woodmen of the World, Odd Fellows (at Ogden), Elks, Knights of Pythias and other orders. The funeral was held at Ogden yesterday. The orders to which he belonged turned out. Two of the children by his former wife were here from Ogden and accompanied the remains to that City.

Not Guilty Her Plea.

Mrs. Van der Schuit was arrested Wednesday on a complaint from the sheriff's office, charging her with murder in the first degree. She was later arraigned before J. W. Hammond, precinct justice, and entered a plea of not guilty. Then the preliminary hearing was set by Justice Hammond for 8 o'clock next Wednesday evening at the county court house. Judge P. E. Woods, who has been retained by Mrs. Van der Schuit, it is understood, will insist on the case coming up at this (the February) term of district court, which convenes at Price next Monday, February 19th.

Blosser Is Still Here.

John L. Blosser, the former husband of Mrs. Van der Schuit, is still in Price with the two children, and it is understood he will remain at least until after the preliminary, and perhaps during the trial in district court. Himself and the two children are at the home of friends on North Ninth street. Mrs. Van der Schuit, says her friends and the sheriff's office, is bearing up well under the strain she is going through. She has many thoughtful and considerate friends that are doing everything possible for her under such trying circumstances.
